

### The future of global macro and markets leadership

Will the US be overtaken?

June 2024

Will the US remain the global economic outperformer? Will China or Europe ever catch up? Will US equities continue to provide higher returns?

Our annual Spotlight project provides a unique, cohesive and coherent framework for understanding whether the drivers of US economic growth and financial markets outperformance will sustain or whether competitors like China and the euro-zone will catch up. Explore the insight and data below.
